Language: English Brand New Book ***** Print on Demand *****.This study attempts to develop a conceptual frame work to deal with operations and management in a foreign business environment. The study develops a measure for business financial performance by employing factor analysis methods to integrate three profit-related ratios, derived from Modified DuPont Model, utilizing financial performance data from 630 multinational companies ranked in Business Week s Global 1000 report between years 1994-1997. In the analysis of multinational companies cases, approximately 400 sets of financial data (Return/Assets, Return/Revenues, Return/Equity), were categorized and computed for intercorrelations and development of the financial performance index. A new financial performance measure was derived and termed the Financial Performance Index or FPI. Indices trends for 4 years were generated and compared among four parent countries (France, Germany, Japan, and U.S.), across four selected industry groups, i.e., automobile, pharmaceuticals, electric and electronic equipments and banking. In the analysis of the multinational companies data, the financial performance index exhibited patterns and trends which varied by country and across industry groups; moreover, they added analytical depth when interpreted along with market
