Reviews

These kinds of publication is every little thing and got me to looking forward and a lot more. It is really basic but unexpected situations in the fifty percent in the ebook. You may like how the writer compose this pdf.

Brand New Book ***** Print on Demand *****.The Quantum Impulse and the Space-Time Matrix is Zoltan J Kiss fifth book in a row proposing a different scientific way of viewing the world, namely, that the world is based on events. Elements and elementary components are processes. This is the only way the definition of time has its sense at all levels of the elementary evolution from the plasma to the Hydrogen process. The quantum impulse of infinite low intensity (the energy quantum) is the entropy product of the elementary cycle. It is the building stone of the quantum system of the space-time. Quantum impulses transfer quantum impacts, signals, light and all quantum information in any direction by the speed of quantum communication. Whatever the impacting signal is, the energy quantum remains as it was before - infinitely small, never expiring quantum impulse without change. The space-time is about the speed and the intensity of the quantum communication. The space-time matrix is the complexity of space-times with the infinite large variety of the speed of quantum communication. Anti-processes control the elementary balance of the elementary processes and ensure the continuity of the elementary evolution. The surplus of the anti-electron processes is the source of the quantum impact of gravitation. Gravitation is the sphere symmetrical expanding acceleration of the Earth, our quantum treasure. With these new insights, this book provides the theoretical proofs and the practical evidence for immediate large scale experiments with the Hydrogen process and the Pyramid construction to solve the world's energy problems, using Nature's gifts of gravitation and elementary processes.
