 The Quran and Future of Science? is a serious work based on author?s twenty years of reflections on the question as to what a divine book, like the Qur'an which claims to be the guidance for all, in all matters and for all time to come, has to say in the realm of problems that science s facing and posing to man and society in the wake of globalisation. The book comprises three chapters. First chapter gives brief introduction to the nature of the qur?anic wisdom, nature of the Qur?anic wisdom, nature of scientific temperament which the Qur'an creates. It also deals with the basic thoughts on the philosophy and sociology of science. Second chapter gives an evaluatory analysis of the Islamic science studies during the past twenty years. The third chapter deals with the challenges that science and globalisation are posing and as to how in Qur?anic can help man face them successfully Printed Pages: 214.
