Brand New Book ***** Print on Demand *****.Excerpt from Text-Book of the Principles and Practice of Nursing The aim of this book is first to impress upon the student the fundamental principles of nursing, founded upon the ideals of service, its object being not only to help cure the sick and heal the wounded but to bring health and ease, rest and comfort to the suffering mind and body. Secondly, to emphasize the underlying principles of each practical procedure or treatment in addition to giving the method of procedure or technique. Only by a thorough education along these lines can the student reap the full richness from her profession or give to the patient the sympathetic, intelligent and skilled care necessary to his welfare and recovery. The text covers the fundamentals in nursing, namely, the nursing care and treatments used in general medicine and surgery which are usually taught in the first and early part of the second year, the rest of the students training being devoted to the special branches of nursing. The nursing care and treatments used in diseases of the eye,...
